Current #56

Hugh D. Riordan

Support your body while it is still strong.

The clinic and the lab

Hugh Desaix Riordan opened a house in Wichita in 1975 with Olive W. Garvey. The name on the door was the Center for the Improvement of Human Functioning. Function first. A lab so nutrients could be measured, not guessed. RECNAC put the vein under a research roof. Klenner had the bag in Reidsville. Riordan built a building that could keep it.

Michael J. Gonzalez named him mentor. He consulted that house. RECNAC II in Puerto Rico took the research name from this one. Hunninghake kept the chair after 2005. This page is the founder.

A roof is not the Program

His layer	Not this page
A clinic that measured functioning.	A Foundation clinic. A ticket to Wichita.
A lab beside the vein.	A bag we sell. A patent as the how.
Research named, not a rumor.	A cancer cure. A sixth pillar.
Gonzalez’s named mentor — with Hoffer and Foster.	A shrine that replaces Tuesday.

What the layer taught

If the work stays only in one country doctor’s office, it dies with him. A roof, a lab, and a written project give the vein a second life. That is not a franchise. The house is theirs. Our how stays Metabolic Correction. Our day stays the five.

How you keep it

Keep Eat. Keep Layer 0. If a question is a bag or a panel in your own body, take it to someone licensed who knows you. Harold D. Foster is next — the map of the ground. Hunninghake already holds Current #59 as the house after the founder.

Be brave enough to honor a founder without booking the flight

You are not behind if you never saw the geodesic roofs. You are not too late. Your mills are still minting every second of every day. Feed them. The clinic is a layer. It is not Tuesday.

The question

Will you honor the clinic that put the vein under a lab — and still keep the five as the day? The answer is yours. You can take it. You can leave it. No one can take it for you.

If you take it, eat tonight. That is Riordan, kept as the roof — not as a destination.

If you want to keep learning, keep flowing with our Currents. Harold D. Foster is next.

Notes

- This is education. It does not diagnose, treat, or claim to cure. It does not claim RECNAC proved a cancer cure.
- It does not replace your physician, your medications, or the care you already have.
- If a question is about your own body or intravenous ascorbate, take it to a licensed professional who knows that vein. G6PD deficiency and significant kidney insufficiency are hard stops.
- The Foundation does not sell IVs, lab panels, or a Riordan visit. It does not co-brand the Wichita clinic. Neil Riordan's later stem-cell chapter is not this Current.
